Minecraft: Legend of the EnderSpider is a fantabulous tale of the beginnings of the EnderSpider. The King of the Endermen born with the purpose of destroying all spiders. The author writes with a smooth and engaging style that captures your attention and makes you want to learn more.I see here that bullying knows no boundaries, and just because the spider happened to have purple eyes instead of red, that was reason enough for his outcasting.It was only a matter of time before enderspider figured out his purpose, and although it was to rage war, because he was never

accepted as he was as a child spider, he had no issues destroying his own, even his own father. Great story for all Minecrafters!

Minecraft: Legend Of EnderSpider is an ENDVENTURES series number five story book. All story surrounded by EnderSpider's prince whose eye is purple. It is an amusing story where once Ender Spiders were lost their home, but by the command of EnderSpider prince they were again retrieve their home.

I have read quite a few of the Endventures books, and, even though it focuses on the "Ender" element, there does not need to be an Ender everything. Sadly, that's the direction you decided to put your series in. What you could've done: Made the Ender Spider a bizarre creature that goes as tall as 30 feet and causes an epic rampage across the entire land of Minecraftia (or Minecraft, whatever you call it). Then, a group of heroes come from afar and save the day! Eh, that's an idea I made at the top of my head. Still ---SPOILERS AHEAD--- What you actually did: You made a spider kingdom. That concept wouldn't be so bad if the spiders weren't so human-like. Well, physically, they aren't humanoid (duh), but their traditions would better suit a human civilization than anything else. The spiders themselves have human-like personalities. The spiders would be far more interesting if those two characteristics stood away. There's no action as well (unless if you count the invasion at the end, which was not very entertaining). The entire concept of the war between endermen and spiders was only there because of plot convenience. First off, why spiders? Sure, endermen and spiders might get into some fights occasionally, but an entire war? Realistically, The endermen should've made it into a very short war. Not to mention this book started a really bad trend: Ender zombies, ender rabbits, ender panda (why?), ender ghasts, you name it. Instead of making original ideas, you simply got mobs from Minecraft and slapped "Ender" on it. All of the previous books were good. However, I think you came to the point of where you ran out of ideas. Call me a nitpicker, but that's just how I feel about the series.

This was an ok book, but for 2.99\$, it was incredibly short. I would also like to see more development. The ending felt very unsatisfying. Other than that, a somewhat decent although very short book.

amazing! i love these stories and they are so cool. i mean, how does a spider have purple eyes!?! well now you know. so if your playing minecraft and you run into him, say hi for me. :)

the spider queen is having trouble to give birth to a Prince then it all changed the night when he was born wind was raging across the land that is how it all began

this books was nice the spider found out who he is then he destroyed the other spider's that were mean to him but he saved his nice mother.

My son loved it. He loves Minecraft and reading. He's in the first grade and this is his very first series that he is reading on his own.
