Chinese Characters: Look And Compare

Synopsis

Look and compare: 人, 大, 天, 天. Why are these ideograms so alike? Is there a reason to draw an extra point or a longer stroke so the head extends to the side or not? Yes, there is more to the meaning of an image than just the simplest form conveys. 人 "man, pictogram of a person", 大 "big, a person who spreads his arms to show his size", 天 "sky, god, very very big till the end", 天 "master, a person greater than the sky". Two characters, instead of one! The unique concept of this book is to show two or more similar characters and understand their meaning and difference in origin. We will explain, for example, the process that lets you change the ideogram of "wood" to "origin" which is also "root". This logic leads to an improved ability to easily learn the Chinese language. An ebook for the curious and those who want to learn! The simple explanations in this book let those who are curious about Chinese culture or who want to get a tattoo of Chinese characters to understand a little better and also to be able to communicate in China. This first step into the ancient culture of the Middle Kingdom will introduce you to anecdotes (any relation between "night" and "many?") that will help you understand the oriental mind. Something to satisfy the curious!
