# Time Meddlers On The Nile

## Synopsis

One of Canada's top scientists has discovered the secret to time travel. But everything has gone wrong. Thirteen-year-old Matt Barnes and Sarah Sachs, while attempting to rescue Matt's father from multiple universes, face an even more challenging obstacle: the erasure of their own timeline. What can they do before they, themselves, are erased? Somewhere along the Nile the two teens must prevent the ultimate meddling during the time of Nubian pharaohs and princes, palaces and temples to rival the ancient Egyptians and fearsome desert raiders. They must puzzle out the moment and event where Matt's father or his arch nemesis, Nadine, interfered with history. If they don't, it could mean the end of time as we know it, or a never-ending loop of time. Warning: You must have a strong stomach to read this book, as it is sprinkled with the occasional mummified remains.\* Time Meddlers is Recommended in The Children's Literature Review and Canadian Teacher Magazine

## Customer Reviews

As an adult, I really enjoyed the easy reading and young characters. The plot is active and draws

you back to finish as much as you can in the time you have to read. Matt's adventure with the crocodiles kept me holding my breath. (even though I knew he was one of the heroes of the story) Sarah's willingness to follow Matt into the time machine every time (even though she always tries to talk him out of it), sometimes drove me crazy. She trusts him with her life, and can't seem to let him go alone. Kept moving, didn't slow down or get boring. Good read.

I had never read any of this authors works. I saw the Time Meddlers and thought I would try it. I have now read all the Time Meddlers. You might say that I am hooked on Deborah Jackson's books. Give her books a try, I thank you will like them as much as I do.

This was a good book. It was hard to put down. It had a lot of action and great historical facts.

Have read previous two books, but this one was too predictable and boring.
