I read this book at the right time. I was hunting for houses on trustedhousesitters website. Pen sitting business is incredibly wonderful. You get to travel places as well. Anyways, the author mostly focuses on how one can get started like getting a website etc.. It's nicely summarized and was easy to understand.

This ebook really is a nice guide on how to start your own dog walking business. The author gives some useful tips that seem to come from personal experience and are therefore valid and trustworthy. I'm happy I came across this book and I give it five stars out of five because I really learned a lot by reading it.

I have been working part time to spend time with my son at home but I wanted to do something that would bring in a little more income. This book guided me to a new business that is flexible and still allows me to spend time with my son. It covers several topics like advertising that I would have never thought of.

This book is an informative source, its good to check with local television stations and radio stations to see if they offer a community calendar. If they do, then schedule an event and have it listed. There may be a fee attached to this. Even if the calendar listing is free, you will have costs associated with the event. But the free advertising and potential customers are worth the price. It should be clear that your reputation as a business owner is important.

Wow. The lack of information in this book is mind boggling.If you don't have common sense that is offered in this book. Maybe starting your own business isn't for you.Man. I could have written this book while walking dogs.All this stuff is a no brainer. Waste of money
