Customer Reviews

Level Two is just what I was looking for: more vocabulary and different verb tenses to help with natural conversation. The only drawback is that the woman speaks a little too fast, but on the upside, that is helping me decipher the German sounds and is preparing me for real conversational situations. I just stop it and go back to listen again if I have problems with it.

I downloaded the Audible version to play on my phone through Bluetooth in my car. I'm starting with level 2 because I already have a good vocabulary from school - just need work on my sentences. Every sentence is first given in English then twice in German with time in between to repeat. I'm enjoying it - I actually feel productive when I'm in the car now.

Nice. I've had experience with this brand and feel good about having the new one in German.
