The Pimsleur Method We make no secret of what makes this powerful method work so well. Paul Pimsleur spent his career researching and perfecting the precise elements anyone can use to learn a language quickly and easily. Here are a few of his secrets: • The Principle of Anticipation In the nanosecond between a cue and your response, your brain has to work to come up with the right word. Having to do this boosts retention, and cements the word in your mind. Core Vocabulary Words, phrases, and sentences are selected for their usefulness in everyday conversation. We don't overwhelm you with too much, but steadily increase your ability with every lesson. Graduated Interval Recall Reminders of new words and structures come up at the exact interval for maximum retention and storage into your long-term memory. Organic Learning You work on multiple aspects of the language simultaneously. We integrate grammar, vocabulary, rhythm, melody, and intonation into every lesson, which allows you to experience the language as a living, expressive form of human culture. Learning in Context Research has shown that learning new

words in context dramatically accelerates your ability to remember. Every scene in every Pimsleur lesson is set inside a conversation between two people. There are no drills, and no memorization necessary for success. Active Participation The Pimsleur Method + active learner participation = success. This method works with every language and every learner who follows it. You gain the power to recall and use what you know, and to add new words easily, exactly as you do in English. The Swiss German Language The Swiss federation is composed of 23 member states known as cantons. About 65% of the Swiss population speak Swiss German and it is spoken in 11 out of the 23 cantons. Pimsleur's Swiss German uses speakers with urban intonation and pronunciation spoken in cities such as St. Gallen, Zurich, and Basel. Tech Talk - CDs are formatted for playing in all CD players, including car players, and users can copy files for use in iTunes or Windows Media Player.

## Customer Reviews

I am learning Schweizerdeutsch for an upcoming trip to Switzerland. I am already rather fluent in German and I speak a few other languages as well, which I have learned mostly from Pimsleur products, college courses and the old but still absolutely excellent Berlitz/The Learning Company software. First of all, the positives: It's great that Pimsleur makes a program for Swiss German. I've looked and looked, and trust me, there really isn't much competition. This is because Swiss German is sort of a regional dialect of German, but, I also understand that the language varies considerably between regions in Switzerland as well, and maybe that discourages other big name language

software companies from even making the attempt. There have been some complaints that you will only learn Swiss German as spoken by a native of Zurich, but, oh well, at least it's a launching point--it's somewhere to begin. The standardized German spoken in Switzerland is Hochdeutsch. I'm also a big fan of the Pimsleur format mainly because I've learned most of the languages I speak in my car, which is very convenient. If I couldn't learn in my car, I don't think I could do it. I find that in my car, I can be very focused for a couple reasons. One, I am alone, so I won't be distracted. Two, I'm not self-conscious of driving other people in my house crazy while I repeat phrases over and over again in order to get the pronunciation just right. Three, it actually relaxes me while I drive, unlike radio--and music gets boring, so I'm much less prone to road rage because I don't really care whether people are cutting me off, cutting into my lane (while I'm in it!), or doing whatever other people do that piss me off. I'm learning a language! It's no wonder to me that I've learned so many languages.
