# My American Journey

## Synopsis

"A GREAT AMERICAN SUCCESS STORY . . . AN ENDEARING AND WELL-WRITTEN BOOK."--The New York Times Book Review  
Colin Powell is the embodiment of the American dream. He was born in Harlem to immigrant parents from Jamaica. He knew the rough life of the streets. He overcame a barely average start at school. Then he joined the Army. The rest is history--Vietnam, the Pentagon, Panama, Desert Storm--but a history that until now has been known only on the surface. Here, for the first time, Colin Powell himself tells us how it happened, in a memoir distinguished by a heartfelt love of country and family, warm good humor, and a soldier's directness. MY AMERICAN JOURNEY is the powerful story of a life well lived and well told. It is also a view from the mountaintop of the political landscape of America. At a time when Americans feel disenchanted with their leaders, General Powell's passionate views on family, personal responsibility, and, in his own words, "the greatness of America and the opportunities it offers" inspire hope and present a blueprint for the future. An utterly absorbing account, it is history with a vision."The stirring, only-in-America story of one determined man's journey from the South Bronx to directing the mightiest of military forces . . . Fascinating."--The Washington Post Book World  
"Eloquent."--Los Angeles Times Book Review  
"PROFOUND AND MOVING . . . Must reading for anyone who wants to reaffirm his faith in the promise of America."--Jack Kemp The Wall Street Journal  
"A book that is much like its subject--articulate, confident, impressive, but unpretentious and witty. . . . Whether you are a political junkie, a military buff, or just interested in a good story, MY AMERICAN JOURNEY is a book well worth reading."--San Diego Union Tribune  
"Colin Powell's candid, introspective autobiography is a joy for all with an appetite for well-written political and social commentary."--The Detroit News  
From the Paperback edition.

## Customer Reviews

An American success story if there ever was one. Colin Powell vividly depicts his extraordinary life and career that could only take place in the setting of America. This autobiography wheels you through life in the poor neighborhoods in the Bronx to Washington Power broker. Colin Powell takes you through his life through his eyes, and into history, in some ways while reading it, I felt as though it was Forrest Gump on steroids, but the story is true. Anyone interested in the policymaking process should read this book, as Powell describes his role as well as the role of other American leaders in making some of the most crucial decisions, the reader is swept into the pressures and challenges faced with America's leaders on a daily basis. The book delivers an account into the lives of Dick Cheney, George Bush, Ronald Reagan, and others, allowing you to take a more personal look at American leadership. It is so easy to criticize from the outside looking in, but usually criticism as well as praise, is done by the uninformed. One aspect I found particularly educational was how Powell provided a small glimpse to me (A young white male) of an educated man, a commissioned officer of the United States Army, refused service in restaurants, and discriminated in others ways. It is a credit to Powell, how he rose above narrow-minded bigotry and focused on the positive; resisting the temptation of "victimization" to become one of the most powerful and respected men in the country. I recommend this book to anyone, black, white, Latino, male, female, liberal, or conservative.

"My American journey" is the story of Colin Powell. He is the living symbol of the American dream. Powell was born in Harlem, and grew up in South Bronx. His parents were hard-working immigrants from Jamaica. He went to school in New York, and later joined the ROTC. "My American Journey" is a very well written biography. Together with lots of pictures from Powell's personal life, from his childhood in Bronx, and ending with his official career in the White House, the easygoing writing style makes this an interesting read. I truly enjoyed learning more about the Vietnam War and the bravery of the US soldiers who fought in the Vietnam War. Additionally, after reading what Powell and Schwartzkopf experienced during the Vietnam War, I can better understand Powell's Gulf goals and actions. Previous to reading this book, I did not have a lot of knowledge about Panama and the invasion, therefore I found this part to be very interesting too. The book provides us with a great study of leadership, while it also is a good study of military history and politics. "My American

Journey" is an excellent story and example that shows us what possessing a strong motivation and integrity can lead to. You certainly do not need to be an American to appreciate the positive attitudes and the message that Powell sends through his book. I highly recommend it to anyone who wants to read about an interesting life, leadership, military history, and politics.

RE: AUDIO TAPE VERSION READ BY POWELL. I am a Colin Powell admirer but a definitive biography would better be told by a skilled independent writer, and after more "chapters" in his life are complete. Powell may indeed be a man of few faults but we can't be sure of that from his own words. I disagree however with reviewers who postulate that Powell has puffed-up his own accomplishments, on the contrary he's excessively modest. Rising to the highest position in the most powerful military in world history (and now to US Sec. of State) without benefit of a West Point education & connections describes a truly extraordinary individual. And far from savaging his detractors and the many incompetents he must have encountered along the way, Powell offers only a few token, and generally mild, criticisms. This book displays insight into Powell's background, development and beliefs but sidesteps tough questions of who screwed up and when. In that sense it is highly Politic - burns no bridges - and gives one hope that Powell may yet consider an Eisenhower-like leap to the highest civilian office.

Historians, military leaders, intelligence (or counterintelligence) officers, or students of foreign policy (or government for that matter) need to put GEN Powell's book on their must read list. I bought the book when it first came out in hardcover, and couldn't put it down. It sits on my nightstand, and I still pick it up and read pieces from time to time. It is an amazing success story and an inspiration--as well as great publicity--for those who have been or are in the military. As a career counterintelligence officer, I find his perspective from the position of National Security Advisor during the Ronald Reagan Presidency informative and useful when taking a look back at the times. GEN Powell, I believe, was (maybe still is) sensitive to being called a political general. Truth to tell, he will probably be known for years to come as much more than that: he is unquestionably one of the greatest statesmen of our times. The US military is full of savvy officers who are comfortable in uniform and in the field but miscast in civilian clothes. GEN Powell is an officer who was equally comfortable and effective in both. Regrettably, I never had a chance to work directly for him or have the benefit of his wisdom until now. One of the finest books I've ever read. Kelly V. Denton, Dieburg, Germany
