Customer Reviews

First, Why do you choose reading this e-book? The first time I saw the cover of the book I thought, "the colorful graphical design of the cover and the title pronounce adventure, surely our 10-month-old daughter will like this." Plus I was intrigued about what CN Tower was all about. Second, What do you expect to achieve in reading "The CN Tower? I was expecting that this

will impart new found knowledge not just to my daughter but to me also. Third, Will you recommend it to other and if so who? (Answer is at the end of the review statement). My husband and I believe in the scriptural saying, "Train up a child in the way he should go: and when he is old, he will not depart from it." So as early as now, we are educating and equipping our daughter by means of reading informative books to her. Since I mentioned earlier the reason why we choose reading this e-book, I myself was amazed about what I discovered while reading this with our little one (lo). I wasn't aware that there was a tower called CN Tower that is located in CANADA before we started reading this; also I wasn't that it was one of the tallest man made-engineered structure that was ever built; the other thing was I wasn't aware that at my age right now (32), reading this kind of Children's e-book was educational and worthwhile. "I will highly recommend reading The CN Tower to Mom's and kids who are engaged in learning about man made-engineered structure. This is really a good read. The only thing was since it was an e-book, our lo was being curious to the point that she wanted to hold our tablet by herself and even slides the pages of the e-book with her fingers.
