## Customer Reviews

Our six month old son loves the Bosley bear series. The books are very interesting to him, and I love the German and English translations side by side. In the back, there are vocabulary lists, which are helpful. I am learning some new words myself! As a stay-at-home mom, I find it interesting to practice a language and read to my baby at the same time, I feel that it benefits us both!

This is a pretty typical low-budget paper book. For the age it's targeted at, I would have expected higher quality paper in the book - I expect the pages will get ripped or torn out entirely fairly quickly. The cover is also pretty soft and I would expect prone to easy damage and tears. The English/German is acceptable - but if you're looking for any kind of a story book, this is not it. I may get one of the other Bosley books to see how their storylines go, but this one is pretty much just a side-by-side word comparison with extremely simple illustrations on a plain white page. Just overall

not real impressed. Hoping they'll continue developing into a more flushed-out quality all around.

I am German living in the US. I wanted my daughter to get more engaged with her German side and get familiar with the spelling and reading

Beautiful pictures, good quality paper and printing, nice story line. Baby loves it. Now will she learn German from it?

This series was a present for my Granddaughter and her father as a way to teach her German and to keep him fluent..
