French: Elementary - 100 Reproducible Activities (The 100+ Series)

Synopsis

A top-selling teacher resource line, The 100+ Series(TM) features over 100 reproducible activities in each book! Help your students get a jump start on learning French! With more than 100 reproducible activity pages from which to choose, guide your class through the basics of the French language. Begin with letters of the alphabet and numbers, then progress through functional vocabulary. Use the activities to teach your students about colors, weather, food, clothing, animals, the city, and other everyday topics. Activity pages present vocabulary in well-defined categories, and accompanying illustrations assure that your students will learn French in meaningful context. This book is a practical resource filled with fun learning activities. It is an absolute must for the beginning French classroom.

Grade Level: Kindergarten - 5

Customer Reviews

I was looking for materials to help my first-grader prepare for a year in France. These activities ask the student to look at a picture, then a word, and copy the word neatly on the lines. No real games, play with the language, or modeling of how the word would be used in a sentence. Not a communicative approach.

good activities but vocab VERY outdated, like from when I grew up in the 80s outdated. no kid now

needs to know the French word for video cassette player. check this out instead:

This is a great book for my son. He attends a French Immersion school and he is learning a lot of the lessons that are in the book at school. I am able get him up to speed with this book, which put him ahead of his other classmates. Also this was great over spring break because I went over the lessons with him to keep his brain fresh. Also the answers at the back of the book is great since I don't know any french.

This workbook is excellent for teaching upper elementary students. The exercises go beyond simply copying the new words on a line under the picture. Good variety of topics and vocabulary. Nicely illustrated.

This is a good book for the beginner, with puzzles as well as translating English phrases into French, and French phrases into English. Good basic knowledge.

These work and study sheets are even very good for older students to use to supplement the book for 6th to 12th grade. It provides an excellent means for students to begin writing in the target language.

This is a great activity book to add to your curriculum. It gives extra writing activities for those kids who like to read and write. I also use the activities as a homework assignments. Great book for younger French students.

It's a nice reproducible to aid any student taking French. It can even teach an old dog like me, a few tricks! Its a nice extra supplement to any French course. This book is geared to primary grades, but really if you are learning French you have to startwith "primary" level lessons. So-Id suggest it to ANY new student of French.
