Customer Reviews

The packaging is awful and it will lead you to think that it does not work, but it really does! and is the cheapest way to get access to the connect software, which will also give you access to the electronic version of the book. So do not buy the book!! I recommend this product for everyone who is looking for access to the book, and the connect software, for a more affordable price. (Other versions vary from 105 - 135 dollars)

Was helpful in learning the material and getting through the course.

got it on time... very good

Awesome
