The Best Democracy Money Can Buy: An Investigative Reporter Exposes The Truth About Globalization, Corporate Cons, And High Finance Fraudsters

Synopsis

Greg Palast digs deep to unearth the ugly facts that few reporters working anywhere in the world today have the courage or ability to cover. From East Timor to Waco, Karachi to Santiago, he has exposed some of the most egregious cases of political corruption, corporate fraud, and financial manipulation, globally. His uncanny investigative skills as well as his acerbic wit and no-holds-barred style have made him an anathema among magnates on four continents and a living legend among his colleagues and his devoted readership, worldwide. This exciting new collection brings together some of Palast's most powerful and influential writing of the past decade. His columns in the Observer have a cult following and he made headline news when he went undercover for the Observer to break open the 'Lobbygate' scandal of corruption inside the Blair Cabinet. Included here are his reports on that story, which earned him the distinction of being the first journalist ever to be personally attacked on the floor of Parliament by a prime minister; his celebrated Washington Post exposé on Jeb Bush and Katherine Harris's stealing of the presidential election in Florida, which made him "a legend and a hero on the Internet" (Alan Colmes / Fox Radio) when it ran in Salon.com; and recent stories on George W. Bush's pay-offs to corporate cronies, and the business-created 'energy crisis.' Also included in this volume are new and previously unpublished material, television transcripts, photographs, and letters.

Book Information

Hardcover: 224 pages

Publisher: Pluto Press (April 20, 2002)

Language: English

ISBN-10: 0745318460

Customer Reviews

Greg Palast won't shut up. He won't shut up about how Jeb Bush and his lieutenant stole the election from Gore through a vicious manipulation of the voter rolls. He won't shut up about how

cheaply Tony Blair's government can be bought. He won't shut up about how mainstream journalism is in thrall to the prevailing free market corporate ethos. He won't shut up about the Big Lie perpetuated by Milton Friedman and his gang that markets promote democracy, that markets are engines of virtue. He shows with unshakable research that instead of breeding virtue and freedom, markets breed corruption, inequality, and through a politically moribund media, moral complacency. The opening chapter on the high-tech mechanism that the Bush camp in Florida put in place before the elections in 2000 to expunge African-Americans from voter rolls is worth the price of the book. Palast tells us how Jeb's gang reinstated Jim Crow laws in the New South by hiring a database firm with strong ties to the Texas Republican party to compare lists of voters with lists of felons and purge names from the rolls that "matched" in only the most tenuous ways. Roughly 60,000 voters, most of them Black (because the prison archipelago in the United States imprisons mostly Blacks) were stripped of the fundamental right of voting. Why take blacks off the rolls? Because, as Palast notes, better than 9 in 10 Blacks vote for Democrats. He personalizes these facts in the person of a Black minister who had met and broken bread with Jeb Bush on numerous occasions. The minister showed up to vote at his local precinct where he had been voting for over 20 years and discovered that his name had vanished from rolls.

"The Best Democracy Money Can Buy" is a must read for anyone-conservative or liberal-who wants to get a different perspective on what is happening in the world than the one that is consistently portrayed by the consolidated corporate media. While the controversial title of this book implies a liberal critique of Western values and institutions, it actually accomplishes something very different. Veteran investigative reporter, Greg Palast publishes some of the news stories that the consolidated corporate media refuses to report. While some may blanch at the targets of Palast's investigations, which include corrupt politicians, crooked companies, world finance organizations, and the consolidated corporate media, few can deny the accuracy and integrity of his reports. Palast is an independent reporter who originally specialized in racketeering investigations. His methods include scrupulously studying corporate documents, and examining the testimony of whistleblowers, many of whom approach him personally out of disgust toward their parent organizations. Palast does not work for a for-profit media company and is not beholden to corporate interests. This makes him one of the few honest voices in public life. Chief among Palast's exposés is the illegal manner in which Florida Secretary of State, Kathleen Harris, and Governor Jeb Bush illegally denied tens of thousands of African American citizens their right to vote in the 2000 presidential election in Florida. Palast details the methods used by Bush and Harris to exclude eligible African American from voting

such as manipulating database records to wrongfully categorize thousands of African Americans as felons, or wrongfully claiming that convicted felons who has completed their sentences in other states could not vote in Florida.
