Sequencing & Memory Workbook

Synopsis

Brighter Child Sequencing & Memory helps young children master thinking skills and concepts. Practice is included for numbers, patterns, classification, critical thinking, and more. School success starts here! Workbooks in the popular Brighter Child series are packed with plenty of fun activities that teach a variety of essential school skills. Students will find help for math, English and grammar, handwriting, and other important subject areas. Each book contains full-color practice pages, easy-to-follow instructions, and an answer key.

Age Range: 4 - 7 years

Grade Level: Preschool - 2

Customer Reviews

Great book for my ESL tutee who has trouble with writing because of a birth injury. The more therapy he receives and the more exercises he completes with his left hand, the more proficient he will be. He would have been right handed if not got the injury during birth. My tutee is very motivated and loves his "homework" for vacations and summers.

My son is 5 year old and some of this activities are hard for him but others one are so fun and easy for him to learn. Love this book and will definitely buy more. Recommends this for any mom.

A great book for my student's stations.

My girl loves it.
