Customer Reviews

I've used one of these 18-month Moleskine planners for several years, and I always love them. The only part that I dislike is that the organization system makes them very difficult to find. I specifically want a) 18 month b) large c) black d) hard cover e) weekly with week-at-a-glance on one side and ruled page on the other. Invariably, when I start searching for this journal, I will find everything but this exact one -- a) 12-month or wrong years b) pocket or extra large c) rainbow of colors or themed to Peanuts, Little Prince, or Star Wars d) soft cover e) page-a-day or week-on-two-pages. I'm glad I found this one as I wanted it, and I'll mark my calendar for April 1, 2017 to buy the next one.

Got this as a gift for a friend. I use the Weekly with a Jan start and as I watched him taking notes and checking calendars, I knew he needed it too. Received it quickly and I love the Weekly format. It's a lazy Bullet Journal in my opinion. :) So if you hate creating calendars every day/week. ...then use this format. Week on one page on the left side, lined page on the right. Perfect for my BuJo Style.

a more honest review would be 3.5 stars. i cant say I liked this product fully, but it is made of great quality.If you are in the habit of having a lot of space to write in the calendar/date boxes for each week, this planner does not offer that. It does however, supplement with a fully lined blank page right next to the weekly breakdown. I have still yet to get used to this and learn how to make the most of it in such a way that work for my organization style.The other thing that slightly irks me is that there are so many extra pages full of out of country phone codes and different holidays from all over the world. In my case, I have had the habit of clipping together these sort of pages with the used pages, making it easier to flip open to the week that I am planning on. When adding a binder clip or a paper clip to the moleskine, it does not sit nicely and makes awkward bulges in the not so flexible cover.Over all, I love moleskines for their quality and integrity of product, I just found that though I enjoy the product for these reasons, the things and the design that it offers for a weekly planner is something that I will need to get used to and accommodate to, and if they still irk me, that style of organization was not for me.

I use this every day and it works so well! Having a page for each week next to a blank note page works so well for me.
