## Customer Reviews

Love the book itself, but the quality was not good. Hair was falling out of the kitten, a flap wasn't glued on all the way, the yarn for the hat was coming apart. Plus, the edges of the book were pretty beat up. I wish I would have just had Barnes & Noble order it for me instead of buying it off .

My 6-month old baby LOVES this book! It's been her favorite for over a month now. I read it to her a few times a day since this is the only book she really enjoys. She usually becomes distracted after a

few pages, but not with this book. She especially loves when I lie next to her on the baby blanket and hold the book just above us and let her touch various textures.

Condition said "very good--used" but it was awful. One of the flaps was torn off completely. The other flaps had been bent in several different places. There were smudges, and gunk on some of the pages. I felt like washing my hands after touching it. Definitely a disappointment.

One of my daughters favorite books!! She loves to feel all the diff textures and I love that we are teaching her ABC's as we do it. Highly recommend!

Very happy with my purchase
