## Customer Reviews

I want to express my feelings on the Michel Thomas Total German program. First of all, I have been a casual student of German for many, many years, but about seven years ago I bought Rosetta Stone German to begin my study in earnest. I was first interested in German in high school, and I took two years of it while there, then promptly forgot it because I didn't use it much at all after graduation. Fast forward to the time I purchased Rosetta Stone, at which time I jumped right in with great anticipation. I liked the way RS presented everything with pictures and words, matching the two and hearing the native speakers, etc., and not having tried any other courses "other than high school" I had no other program to compare it with. I prodded along with RS, off and on again for several years. I kept hearing the words and phrases in my head, but any time I tried to conceive a thought in my head in German, I often had great difficulty. I knew how to say certain things, those which were presented in the RS materials, but I still found it very hard to come up with my own sentences. I kept struggling with, "Well, how do I say this, or that?" I kept getting frustrated. Basic sentences were not too difficult, but anything the least bit complex was just overwhelming for me. I got up to level 3 in the RS course, at which time the software stopped working on my laptop because I supposedly had an "outdated" version which the company did not care to support unless I paid a "fee" to get a fix. I didn't want to do that since I had paid so much money up front for the course. I don't feel like that is good customer service since at the time I purchased RS, it was twice the cost of what they are now charging for it.
