Customer Reviews

Two of the meditations require you to have a partner to meditate with you. Since I don't have anybody who would be willing to do these meditations with me, I feel like only half of the product was of benefit/interest to me. I would have preferred if she had released a version for solo meditators, and one for couples/pairs.

I bought this after I read her book "Your Sixth Sense, Unlocking the Power of Your Intuition" because I didn't have the equipment to record the passages that were provided in the book for her imagery exercises. Though I haven't used it long I am quite intrigued by the results of doing the exercises. I would recommend reading the book first.

I have played this CD on many, many occasions with friends as a relaxation exercise and always receive great feedback. What a talented therapist we have in Bellruth.

Meditation is incredibly difficult for myself & never seem to reach the completeness of emptying busy mind, BUT these exercises are empowering in getting closer to that goal & enriching the experience!

Fabulous CD, would recommend it to everyone. I have a few of her CD's and couldn't be happier. The positive aspirations are awesome.

I bought a series of Belleruth's CDs. Her meditations are very well done, but I was somewhat disappointed to find out they are all extremely similar. They are still helpful, though.
