Thirteen-year-old Jonah Skidmore feels like an average kid, complete with an intelligent but slightly annoying younger sister named Katherine, a mom and dad who constantly reassure their children that they are special and well loved, and a quiet home in the suburbs of Ohio. The fact that Jonah is adopted has never been a big deal for him, maybe because his parents have always been so open and reassuring about it. To Jonah, life feels normal. But then he receives a letter with six simple words, "YOU ARE ONE OF THE MISSING," and his life flips upside down and way out of control. After some investigating with Katherine and his best friend, Chip, they discover an amazing secret: Chip and Jonah are part of a group of kids who have been stolen out of time --- and their
kidnapping has damaged history. J.B., a time officer, has rounded up the 36 children and is determined to set history straight by sending them back to "when" they belong. The first two to leave are Chip and Alex. But refusing to let them go alone, Jonah and Katherine grab on at the last second, and they all hurtle back through time to the year 1483. With the use of a tool called an Elucidator, the foursome can keep in contact with J.B., who agrees to give Jonah and Katherine a chance to help Chip and Alex. They soon find out that Chip and Alex are not only brothers, but also the king and prince of England. That isn't quite as glamorous as it first seems, though, as someone is out to kill them and take over the crown. The kids struggle to fit in to the 15th century, a time with no fast food, cell phones, or modern plumbing. If they make one little mistake, they could destroy history even more.
