**Synopsis**

This book opens the possibility that Santa Claus -- as presented to most of us -- may not physically exist. It does this in a way that will allow children and their parents to ease into that question, a graceful move from the belief in a living St. Nick, to a belief in the spirit of Christmas. It begins like this: "On Christmas Eve, many years ago, I lay quietly in my bed. I did not rustle the sheets. I breathed slowly and silently. I was listening for a sound -- a sound a friend had told me I'd never hear -- the ringing of Santa's sleigh. 'There is no Santa,' my friend had insisted, but I knew he was wrong." From here, we follow a beautifully illustrated story of this young boy's quiet night ride with other children, on the Polar Express train to the North Pole, a "huge city standing alone at the top of
the world, filled with factories where every Christmas toy was made. "Our narrator is the fortunate child, picked by Santa, to receive the first gift of that Christmas. He knows exactly what he wants, a simple gift that will help him continue to believe in the magic of Christmas, a silver bell from a reindeer's harness. He gets his wish, but loses it on the train ride home. However, there's a happy ending -- evidently Santa has found the bell, and put it under the tree. The boy and his little sister admire the beauty of the sound it makes, but their parents say, "Oh, that's too bad....It's broken." Many years later, the boy's sister and all of his friends can no longer hear the bell. "Though I've grown old, the bell still rings for me as it does for all who truly believe."
